

The Right Choice since 1922

New Plainfield East High School completed "On Time and Within Budget."

A large gathering of parents, students, dignitaries and others were on hand for the Dedication Ceremony and tour of this beautiful new facility. The \$55 million, 273,000 square foot facility features a strong curvilinear architectural design element, and bold color theme throughout.

Attending the ceremony were Henry Bros.Co. representatives, left to right: Bob Nielsen, Senior Manager; Greg Etters, Superintendent; Jeff Bergman, Superintendent; George Ferrell, President; Bill Callaghan, Jr., Secretary; Dave Peregrin, Site Work Coordinator; Kevin Dardugno, Manager.

O'Brien Hall, the second LEED "green" student residence built on the Saint Xavier University Chicago campus, was completed in August to greet incoming students.

HBC Project Superintendent Glenn Anderson, recently completed his fourth student residence hall (shown at left) on the Chicago campus of Saint Xavier University. His third, the Arthur Rubloff Hall,

was the first college building in Illinois to receive the prestigious LEED Gold designation. This fourth residence hall is the second "green" facility built for the University by H.B.C.M.

In his eleven years with HBC, Glenn has supervised construction of seven projects for Saint Xavier, including four student residence halls, the girls' softball field, McDonough Chapel & Mercy Ministry Center, and the University's Orland Park campus. His other projects include a gymnasium addition to Marist High School, and renovation work to the Administration building of North Eastern University.

Glenn resides in Des Plaines with his wife Nancy. They have two sons, Tim a recent graduate of NIU, and Bob, a junior at the University. Glenn's hobbies include building and riding motorcycles, boating and snowmobiling.

Addition to vintage Park District of Forest Park administration building a near perfect match.

Matching 70-year old stonework was a major challenge to the remodeling of this project.

The \$2 million, 6,000 square foot addition and remodeling included a new two-story addition, including offices, an elevator, new staircase, entry level lobby, new boardroom, restrooms, and air conditioning.

H.B.C.M. Project Team: *Manager:* Pete Egizio
Superintendent: John Akers
Coordinator: Reava King

New Glenbrook South High School Natatorium addition well underway.

A new competition pool, gymnasium, fitness center, classrooms and renovated existing pool make up the \$15 million, 100,000 square foot addition/renovation project.

H.B.C.M. Project Team: *Manager:* Darin Jablonski
Superintendent: Greg Etters
Coordinator: Marcy Johnson

The spacious new Crystal Tree Golf and Country Club, Orland Park, was completed early this past summer.

H.B.C.M. Project Team: *Manager:* Pete Egizio
Superintendent: Bob Hartwig
Coordinator: Jodi Creswell

Lincoln-Way West High School, New Lenox

A near mirror image of the 414,000 square foot Lincoln-Way North campus in Frankfort, the new Lincoln-Way West High School campus is proceeding on schedule, to be completed in August of 2009. This is the fourth high school facility built for District #210 by H.B.C.M. in the past fifteen years.

Of the more than 200 tradesmen to be found on an average day on the Lincoln-Way West High School jobsite, journeyman electricians Laura McLean, left, and Sally Eartley, right, can be seen applying their 9-plus years experience for sub-contractor Connely Electric of Addison.

New \$12.4 million, 62,000 square foot Fulton Elementary School in Tinley Park will utilize suitable materials and energy-saving systems in an effort to achieve LEED Certification.

The new Frank Lloyd Wright "Prairie Style" facility will include a media center, library, multi-purpose room, gymnasium, early childhood, wireless classroom technology, and administrative offices.

HBC Project Team: *Manager:* Keith Weglarz, *Superintendent:* Chris Penteris, *Coordinator:* Barbara Mitchell.

Lincoln-Way North High School campus in Frankfort, completed "On Time and Within Budget."

Once again, Henry Bros. Construction Management Services, L.L.C. has delivered as promised, with the timely completion of this, the third high school facility built for District # 210. The sprawling, 414,000 square foot facility features state-of-the-art amenities to serve the student needs of this growing south-suburban area.

H.B.C.M. Project Team:
Senior Manager: Mike Benstent
Manager: John Tondelli
Superintendent: Howie Mulford
Assistant Superintendent: Ron Malesa
Assistant Manager: Kristie Ziolkowski
Engineer: Walter Bruckner
Foreman: Tom Zizak
Accountant: Melissa Mickey
Coordinator: Monica Rychtarczyk

Ground broken for Miller Center Senior Living Community addition, Riverside Healthcare in Kankakee.

A new 34,485 square foot, 40-unit facility will be a near mirror image of the existing skilled nursing facility previously constructed by Henry Bros. Co. Completion is scheduled for early 2009.

HBC Project Team: *Manager:* Pete Egizio
Superintendent: Paul Cantone
Coordinator: Jodi Creswell

There is an old adage that two things in life are for certain, "death and taxes." We in the school construction business think the adage should be "death, taxes and school openings"!

Bill Callaghan, Jr., Secretary

George Ferrell, President

Every summer we face the same critical school opening schedules imposed by our many educational clients. Unlike the flexible schedules on other types of construction projects, schools rarely offer this option.

We at Henry Bros. Co. take extreme pride in the fact that our more than eighty-five years experience and management skills, and our personal commitment, have again resulted in the timely completion of several school projects. From the completion of critical life-safety work, additions and remodeling, new sports fields, student dorms, to the construction of two major high schools (totaling nearly 700,000 square feet), *Henry Bros. Co. once again delivered... On Time and Within Budget.*"

Client satisfaction is our ultimate goal. We know that our reputation is our future, and we constantly strive to achieve and maintain a high level of client satisfaction through dedication and commitment of all our people, from the corporate office to the jobsite.

We appreciate all those who have contributed to our continued growth and success, and look forward to new challenges and satisfied clients in the future!

Warmest regards,

George Ferrell
William H. Callaghan Jr.

The skyline in south-suburban Matteson is changing daily with construction of the new Apostolic Church, featuring a 128-foot lighted tower.

The 57,000 square foot, 2-story masonry structure will feature a 2,500-seat sanctuary with sloped floors for maximum visibility, a 200-seat choir loft and a state-of-the-art sound and video system. Additional features include administrative offices, conference room, and a "junior church" activity center.
